

Project Name: Toronoto Catholic School Board

Project Location: Toronoto, ON

Project Overview

As a leading manufacturer in K-12 labs, CiF was hired to assist in developing and implementing a new science room standard for the Toronto Catholic District School Board. Along with teacher representatives, CiF developed a new room design which incorporates an innovative approach to learning by the use of computer assisted experiments. Moving forward traditional experimentation will be replaced by computer assisted experiments, particularly for the younger grades where safety is a primary concern.

Project Statistics

- Budget: \$1 M

Project Participants

- Architect: Mekinda Synder Partnership, Sane Architects Inc., Kingsland + Architects Inc., Kneider Architects
- General Contractor: Percon Construction Inc., Newgen Construction, Rutherford Contracting
- Dealer: CiF Lab Solutions Direct
