

**Project Name: Calhoun Community College**

**Project Location: Huntsville, AL**

**Project Overview**

Calhoun Community College welcomes a new three-story 90,000 sq. ft. facility that will house Math, Science and Computer Science at the Huntsville Campus. This new cutting-edge focal point for the College incorporates both modern and traditional features into its design and layout. The building houses faculty offices, collaborative work spaces, and classrooms. CiF manufactured fixed laboratory islands featuring vertical grain matched red oak storage solutions. In addition to fabricating custom red oak stained hexagonal lab tables connected by sinks with dual faucets.

- CiF Premium E-Line Plain Sliced Red Oak Wood Casework
- Labconco Fume Hoods
